ENVIRONMENTALLY FRIENDLY SOLUTIONS...

Comfort Air Cleaner for Hotels...

**-without the use
of chemicals!**

EU Environmental Award for Cleaner Technology

Take care of your guests!

The first impression a guest has of a hotel room is the indoor climate.

Several hotels use air sprays which function with a propellant gas with a fragrance added (perfume) which can be an unpleasant surrogate of fresh air and may bother people with asthma and allergies.

A deodoriser or an air freshener and other products cannot remove a bad smell, but only overpowers or masks the unpleasant odour.

Therefore, the guest's first impression of a room can be experienced as artificial and uncomfortable, and may mean that the guest will not return to the hotel at a later occasion.'

Better indoor climate, better working environment

A bad indoor climate in the rooms where people are affects our quality of life and health negatively. Unpleasant odours can create discomfort on its own, but indoor air pollution is also a source of headaches, respiratory problems, fatigue and asthma. All these nuisances affect people's ability to work and concentrate.

Smells can be difficult to get rid of.

Even if a room is well ventilated it can still be difficult to remove bad smells.

With OZ1000T you can solve odour problems of any kind permanently without the use of chemicals.

The smell will not return, unless the pollution source is still there

Effective cleaning!

OZ1000T effectively removes smells from e.g. cigarette smoke, perfume, vomit, dogs, sweat, and at the same time it removes micro-organisms like:

Bacteria, viruses and fungal spores.

Can be used again and again!

- so this is an environmentally friendly and financially sound solution.

Functional and fast!

OZ1000T is easy to move and only has to be connected to a power outlet.

A timer will automatically interrupt the treatment of the room, typically after 15-30 minutes.

JIMCO A/S modtog i år 2000
EU's Miljøpris i Kategorien
„Renere Teknologi“
på baggrund af sine luftrensningssystemer

The below hotels use the air cleaner model OZ1000T in Denmark:

Hilton, *Copenhagen Airport*
Admiral Hotel, *København*
Hotel Villa Gulle, *Nyborg*
Hotel Kolding Fjord, *Kolding*
Palads Hotel, *Viborg*
Top Hotel Hebron, *København*
Hotel Viking, *Sæby*
